Activities, Courses, Senior Design Project

Senior Design Project - Shelly

FRONTEND DEVELOPER

Istanbul, Turkey

Sep. 2019 - PRESENT

- As Team Shelly, me and my two other friends, realized that there's no application about pet adoption in Turkey. So we decided to develop one using React Native, with the help of our framework, we created our application for both Android and iOS platforms. Now even though we completed our course successfully, we are still working on new features to make it a better application for users and pets.

Free Software Club

HEAD OF ISTANBUL BILGI UNIVERSITY FREE SOFTWARE CLUB

Istanbul, Turkey

Sep. 2018 - PRESENT

- As Free Software Club, we organized Free Software Days with the help of Free Software Association in which lots of speakers from the industry attended, and shared their wisdom with students not just from our university but also from other universities. Also we organized Django Day for all the students who's been wanting to learn programming but couldn't find the chance. With the help of our one day long workshop, people had a great grasp of basic Python and Django knowledge.
